

Crazyshow - CD1 - State Of Dreams - 5:55

Woke up at the break of day  
Something chased my dreams away  
Isn't it quite strange the way we live  
You're so pretty, you're so sweet  
I like to watch you in your sleep  
I'd give a million if I knew your name  
And all I need is to be with you  
In a state of dreams - a state of dreams  
That's where I want it to be with you  
In a state of dreams - a state of dreams  
Love is such a fractured thing  
It's splinters slither in our skin  
Isn't it quite strange the way we play  
Turn off the lights and come to bed  
Forget the dreadful things I've said  
Let's wait until the stars come up and we will go our way...  
Cause all I need is to be with you...

Crazyshow - CD1 - Ship Of Fools - 4:35

Did you know when the journey started  
That's we'd ever reach that point  
Many years we sailed together  
Now it's time to say goodbye  
You don't know what  
I've been going through  
Haven't heard that much from you  
Isolation is a nice flower

Now I wonder what to do  
You never know when your dreams come true  
Is it good for you, is it good for you  
On our ship of fools we're drifting along the shores never seen before  
When you told me that you're leaving  
Cause the stakes wre much too high  
I was wond'ring why you said so  
Since we still got wings to fly  
I will never ever give up  
Just as long as I am here  
Till the end I'll spread my wings  
And raise my dreams against my fears  
You never know...

Crazyshow - CD1 – Zoo - 5:58

Look at me - you can watch me  
Listen to me - you can hear me  
Talk to me - you can yell at me  
Play with me - you infuriate me  
Look at me - just watch me  
Try to see... - but you better not touch me  
Look at me - just watch me  
Try to see me through - but you better not touch me...  
Does it make you feel better ? to know that i'm here to stay.  
Does it make you feel better ? to know my heart is locked away.  
Does it make you feel safer ? knowing i won't get away.  
Does it make you feel safer ? to have my soul in chains.  
Watching you - I can look at you  
Hearing you - I can listen to you  
Yelling at you - I can't talk to you  
Feeling you - I wish I could touch you  
Look at me - just watch me  
Try to see... - but you better not touch me  
Look at me - just watch me  
Try to see me through - but you better not touch me...  
Does it make you feel better ? to know ....  
Does it make you feel better ? to know that i'm here to stay.  
Does it make you feel...better ?  
Does it make you feel safer ? knowing I won't get away.  
Does it make you feel safer ? to have my soul in chains....

Crazyshow - CD1 - C Me Thru - 3:45

I'm living in a perfect world embedded in a perfect game can't get enough of all this stuff but everything is quite the same and all the cigarettes and pills, all the visions, all the thrills they seem to come second hand I wonder if you understand the mirror is a

brilliant place to lose myself within a maze they moved the moon when I looked down and then they turned the stars around I  
try to speak but what's the use, instead I scream, I'm so confused and when I tried to touch your face, you disappeared without a  
trace

Just see me through

And please believe me what I'm telling you

( you disappeared without a trace )

Don't bring me down

I`m standing naked here in front of u, just when I tried to touch your face

Just come on here

What do you think that I can do for you

I might have lied so many times before

But this time I'll be true

These days are fast, they seem like glass, they rushing in and then they pass they have no value anymore, they seem like clones  
or metaphors and honesty is what we hate, it's what we're trying to escape from I wash my hands a million times like pilate  
when he did his crimes when we are young we're wild and free, when we get old we're history

I struggled hard to fit the mold, I hope I die before you're old it doesn't matter what we gain when all our does or dies are in vain  
and when the music fades away our memories just go astray

Just see me through

And please believe me what I'm telling you

( and when the music fades away )

Don't bring me down

I`m standing naked here in front of you

( Our memories just go astray )

Just come on here

What do you think that I can do for you

I might have lied so many times before

But this time I'll be true

Crazyshow - CD1 - Upside Down - 5:04

You carved the runes into my bones and signed them up for me

I still don't know what's on your list and what's prepared for me

You killed the fairies in my dreams, you poured their blood on me

If I only knew your plans, I'd drink it happily

I hate to be in love with you but put the blame on me

You're innocent just like a gun, you love me dangerously

Your body seems to be unreal, your touch is like the sea

And when I gaze upon your smile the devil grins at me

But if I lost your gleaming look I'd lose the light in me

As long as I can feel the pain I burn fantastically

I hate to be in love with you but put the blame on me

You're innocent just like a gun, you love me dangerously

You brought the stars right down to me, you smashed them on the ground

You ripped the moon out of its place and turned it upside down

Maybe you thought I'd take it cool but I feel like i'm cursed

Armed with the rapture of a fool I ruin my universe

I hate to be in love with you but put the blame on me

You're innocent just like a gun, you love me dangerously

\*

..you carved the runes into my bones and signed them up for me

I still don't know what's on your list and what's prepared for me...

...for me

...for me

...for me

Crazyshow - CD1 - And As For Love - 4:10

That I denied one time too many

She left me at the break of day

When I awoke she seemed still spinning in my head

But she was gone, the capsule empty and her body dead

Was all she'd left behind without a last adieu

Sometimes I wonder if she'd left a hundred years ago

To start anew we need to be strangers from now on

And as for love we need to be strangers from now on

And I remember when she came into my life

It didn't count who she was or what i was like

I never meant to hurt her but she never did

Her name was love, her bodies infinite

And now she is gone, the capsule empty and her body dead

Sometimes I wonder if she'd left a hundred years ago

To start anew we need to be strangers from now on

And as for love we need to be strangers from now on...

Crazyshow - CD1 - Girl From Pachacamac - 4:05

I wish I'd had the time to look into your eyes

And quietly say the words, the words that you'd expect

I wish I'd touched your face and you would hold my hand

Then tears were on our guard and silence was our friend

And we would leave behind the chaos in our lifes

The struggle and the strife and the black and white

And all the letters that we wrote

Would be printed out in gold

In our memories to behold

Without explanations

To be told...

I dreamt I had the time to listen what you'd say

And what you'd say was true and we could start anew

I saw u bachstage in that chair

Dressed up in lies but oh so fair

And then I took you by the hand and off we went

And we just drank to quench our thirst  
That never dies and always burns  
Deep in the night out on the streets  
I'd like to kiss you too but it wouldn't do  
And all the poems that we wrote  
Would be printed out in gold  
In our memories to behold  
Without explanations  
To be told...  
And we would leave behind the chaos in our lives  
The struggle and the strife and the black and white  
And all the letters that we wrote  
Would be printed out in gold  
In our memory to behold without explanations...  
And we just drink to quench our thirst  
That never dies and always burns  
Deep in the night out on the streets  
I'd like to kiss you too without explanations..  
To be told..

Crazyshow - CD1 - Carry For Flag (superheroes) - 4:37

We must have played  
For more than ten years  
We must have thought  
That we're immortal  
Shame, shame on us,  
Ah little hussy,  
What did you think I was  
I look at us  
We have grown older  
A lot too much  
For me to take  
I thought  
We were immortal  
I'm so sorry  
I couldn't keep my promise..  
..to carry on your flag for you  
Some superhero-being  
It seems to me  
That we are changing  
There ain't no limit  
To imagination  
The world just turns around  
Without a care  
Sometimes I feel like crying  
And every time

I need to touch you  
How can I ever  
Break the distance  
That's why my love  
Became so strong and pure  
That's why I keep on  
Trying forever..  
..to carry on your flag for you  
Some superhero-being  
F o r y o u  
Some superhero-being  
Waiting  
Under the light of the moon  
F o r y o u..  
I'm coming soon.

Crazyshow - CD1 – Moongirl - 5:03

Sometimes it seems the night will last forever  
Sometimes it seems that darkness always falls  
A dark star woke you up and with a dark star, you go to bed  
You're sinking slowly into the deep  
You wonder if you ever touch the ground  
Where you would walk through sparkling spheres,  
On strangest drugs and without fears  
You feel just like a little girl  
And all your dreams lie frozen on the moon  
Yyou left them ther some time ago  
But it ain't true that you don't need them anymore  
You are so beautiful, you are so very beautiful  
Don't give up, kill the pain, don't start crying again  
Here it comes, here it comes, the golden handshake of life  
You are so beautiful, you are so very beautiful  
Keep the faith, stop to fight  
And walk out into the night  
You're so strong, yes you are  
Reach out for your star....  
Even those who are afraid to live  
They're dying some day  
Sometimes it seems that silence crawls all over  
Sometimes it's hell inside and hell out there  
Your heart is nothing but a haunted place  
Is that you in the mirror ?  
You're all alone inside a world  
Full of confusion and of strange alarms  
And though your courage left you long ago  
It doesn't mean that you don't have it anymore

Crazyshow - CD1 - Return To Paradise Part 2 - 8:20

Kings and queens and frogs and princes  
Gnomes and dwarves and dragons old  
Treasures hidden, golden sphinxes  
Lovely maiden, giants bold  
Hush, my little lovely darlings  
Dream on through the deepest night  
Here 's a kiss for each of you  
Wonder where you going to  
When you 're sleeping tight  
Return to paradise...  
Sometimes when it 's really quiet  
I come running to your bed  
Listen hard to hear you breathing  
Stroke your tender little heads  
You are flowers sent from heaven  
On a gentle golden breeze  
Here 's a kiss for each of you  
Maomoon dog singing too  
Lullabies of peace  
Return to paradise...  
On a ship to elfland wonders  
Just a little trip away  
There you 're playing in the starshine  
Underneath the milky way  
All the angels in their glory  
Will be watching over you  
Dream on while the stars are falling  
( falling on you )  
May your dreams come true

Crazyshow - CD1 - Those Wonderful Things - 5:18

Some days you run, run, run  
You never stop and when you stop  
You're too tired to think about anything.  
But some day, when you finally stop,  
You're able to think and wonder about your  
Breathless running  
And if I could have a christmas wish come true...  
I would wish for nothing but (for) wonderful things  
And in your life, which is so precious to me,  
May troubles, worries never linger;  
May they only make you stronger...  
And may you rise each day with sunlight

In your heart  
And success on your path  
And answers to your prayers  
And that smile  
That i love to see  
Always there...  
In your eyes...  
And if I could have a christmas wish come true...  
I would wish for nothing but (for) wonderful things  
And in your life, which is so precious to me,  
May troubles, worries never linger;  
May they only make you stronger...  
...and able and wise  
...and able and wise  
...and able and wise  
And if i could have a christmas wish come true...  
I would wish for nothing but (for) wonderful things  
And in your life, which is so precious to me,  
May troubles, worries never linger;  
May they only make you stronger...  
...those wonderful things  
...stronger  
...those wonderful things  
...stronger  
...those wonderful things  
...stronger  
...those wonderful things

Crazyshow - CD1 - On The Beach - 10:22

This  
Is our place  
In the free and open air  
Under starry skies  
By the endless sea  
In an endless chain  
We are locked together  
I became a star  
You were my creator  
Never have we been closer than tonight  
U & I when our shadows crossed the light  
Never have we walked  
Further wondrous ways  
And this is where we stand  
Here on the beach  
And I'm tolling my bell  
In the fog 2 let u know

I'm here by your side  
In this madness called life  
Though the knights have all gone  
And we lowered our flags  
I sing you this song as the tides wash the sands  
On the beach  
Take my hand like I once took yours  
Look me in the eye like i once looked in yours  
Here we go again, speaking in strange codes  
Reading all the stars  
Like an open book  
On the beach

Crazyshow - CD2 – Wonderboy - 3:37

I haven't been very good  
For some time but now I listen to the music once again  
To bowie and the petshop boys  
Getting better as the music's getting back to my head  
When the moon has turned the blood  
At the end of the world  
Then the saints go marchin in and everybody starts to cry  
Wake up, wonderboy  
I haven't been very well  
Feeling kind of seasick, tryin' to follow your contrail  
You're flying miles above my head  
While I'm dreaming underwater sleeping in a whale  
When the stars begin to shine  
Let me be in this number  
And then it comes within a wave, like lsd to phantasy  
Like gasoline into a fire, like virgin blood to a vampire  
And everybody starts to smile  
Cause I'm the wonderboy again...  
Wake up, wonderboy..

Crazyshow - CD2 – Hurricane - 5:27

I used to live in the greyness of life  
Like a parrot in a flock of crows  
Better put on my gold-feathered cloak  
And walk out into the cold  
And since i was a kid i shone so much from inside out  
Like san sebastian on prime time tv  
And i sigh when I look at all the good things around  
All those untold treasures  
And unmeasured pleasures

I'd like to be like no other honeybee  
Sucking on the sweet, sweet flower  
And when the sun goes down I got the power to fly...  
And that is the only feeling,  
The one and only chance to get away  
From anything that hurts  
That's what my manager used to say...  
When you came into my sight  
I ( had to ) put on my shades  
Cause I was blinded so much  
By the light that you spread  
And I'm sure it will grow forever  
And scare all the zombies away  
And since I know we belong to each other  
You can try me out cause it gets me on the go  
Could we ever hope that we would star tonite  
In this crazy show  
I know you'll be like no other honeybee  
Sucking on the sweetest flowers  
And when the night is falling we got the power to fly...  
And that is the only feeling,  
The one and only chance to get away  
From anything that hurts  
That's what my manager used to say...  
And that is the only moment  
Giving away is all we got to do  
To take away the pain  
Till the music will rage in our brains  
And then we're standing in a hurricane  
2 b free...  
You're standing in a hurricane  
To be free  
Hand in hand with me to be free...  
And the sun goes down...  
And the sun goes down...

Crazyshow - CD2 - Do The Strand - 4:58

There's a new sensation, a fabulous creation  
A danceable solution to teenage revolution  
Do the strand, love, when you feel love  
It's the new way, that's why we say  
Do the strand  
Do it on the tables, quaglino's place or mabel's  
Slow and gentle, sentimental  
All styles served here, louis seize he prefers  
Laissez-faire le strand

Tired of the tango, fed up with fandango  
Dance on moonbeams, slide on rainbows  
In furs or blue jeans, you know what i mean  
Do the strand

.....

We're playing our tune by the pale moon  
We're incognito down the lido  
And we like the strand  
Had your fill of quadrilles, the madison and cheap thrills  
Bored with the beguine, the samba isn't your scene  
If you feel blue look through who's who  
See la goulue and nijinsky  
Do the strandsky  
Weary of the waltz, mashed potato schmaltz  
The sphinx and mona lisa, lolita and guernica  
Rhododendron is a nice flower  
Evergreen it lasts forever but it can't beat the strand power  
Do the strand

Crazyshow - CD2 - Still Falls The Rain - 4:19

The rain against the windshield endlessly  
For many years i cruised around the world  
I've finally disembarked my ship of fools  
A hero then, a stranger to return  
I'd trade my goldrush 'gainst your silvernets  
To know what happened after all this time  
And in your arms I'm lost forevermore  
I wonder how you ever felt in mine  
Isn't it strange, I still can hear your call  
Isn't it strange, I'm not a ghost at all  
Isn't it strange or is it just insane  
Isn't it strange, the glory and the fame  
Still falls the rain..  
Do you remember how we used to play  
And how we waved our banners in the sun  
Do you remember how we gave ourselves away  
For some strange kind of fun  
And how we smiled as if we'd understood the writings on the walls  
And cooked our spice on silver spoons  
And if we wouldn't see the light  
We overdosed the foll'wing night  
Isn't it strange...  
I've got burnholes in my fingers that could not ease your pain  
Or was it me who killed the blue inside your eyes ?  
When silence grew behind our shadows on the wall  
But if all was silent, could we hear a bit more ?

I wonder can you hear me now ? - isn't it strange

Ohhh...

Isn't it strange, I still can hear your call

Isn't it strange, I'm not a ghost at all

Isn't it strange or is it just insane

Isn't it strange, the glory and the fame

Still falls the rain..

Crazyshow - CD2 – Ways - 6:38

Hey mrs fields, why do you look so sad

Is the whole world gone mad or is it still a strawberry-cake

How I wish to kiss your sweet, sweet lips

To share your blissfulness

It made me feel like floating on a cloud

I´m talking to you soon

There´s so much left to say

On a crystal winter´s day...

And the snowflakes outside show a million ways

Show a million days in their dance

And the wind blows them on and carries them away

Into anywhere from moment to moment

Hey mrs grey, tell me what would you say

If I turned on the sun and poured all the colours down on you

Would you smile and say it´s alright

I can see the light at the end of the tunnel

And then we´d face the sky, sitting side by side

Going very far to a distant star...

And the snowflakes outside...

I can tell by the sound of your voice

And i can tell by the look of your eyes

There must be something goin´ wrong in your life

But please, please believe me, baby, i´m by your side

There´s so much left to do, so much left to say in a million ways

There´s so much to be seen, so much to be touched, so much to be loved

Take my hand and come out to play ..

There´s so much left to do

For me and for you...

There´s so much to be loved

Please, come back

Don´t walk into the dark

Hey mrs fields, why do you look so sad

Is the whole world gone mad or is it still a strawberry-cake

How i wish to kiss your sweet, sweet lips

To share your blissfulness

It made me feel like living anew

I´m talking to you soon

There´s so much to be done  
When the winter´s gone...  
And the snowflakes outside...  
There´s so much left to do, so much left to say in a million ways  
There´s so much to be seen, so much to be touched, so much to be loved  
Take my hand and come out to play...  
Come out to play...

Crazyshow - CD2 - The II Girlz ( Cloud Nine ) - 4:40

...this may be true or might come false  
While delving into far beyond  
I'm here at hand but in the end  
What have ya been  
I do not comprehend, just don't understand  
mmmhh..., the parallel girlz  
They look as if they had been squeezed  
From the same tube of toothpaste  
The wrong way about right from the start  
We're close apart, in each other's heart,  
...the parallel girlz  
I love you all, the prude, the wild  
And the shameless...  
The quiet and the sad and the helpless...  
The parallel girlz, they're in my head  
And in my bed  
The ones I met I can't forget  
A stupid try on cloud 9  
So i beat on against the current  
Borne back ceaselessly into the past  
Sometimes they talk with wordless kisses  
Sometimes they see with gentle touch,  
...the parallel girlz  
I love you all, the cruel, the weak  
And the useless...  
The naive and the bold and the loveless...  
The parallel girlz, they're in my head  
And in my bed  
The ones I met I can't forget  
A stupid try on cloud nine  
On cloud nine with a parallel girl  
The wicked and the poor and the worthless...  
The cruel and the weak and the useless...  
The prude, the wild and the shameless  
I love you all...  
I love you all, the cruel, the weak  
And the useless...

The naive, the bold and the loveless  
The parallel girlz, they're in my head  
And in my bed  
The ones I met I can't forget  
A stupid try on cloud nine  
The quiet and the sad and the helpless...  
The naive, the bold and the loveless...  
The cruel and the weak and the useless...  
The prude, the wild and the shameless...  
The quiet and the sad and the helpless...  
The naive, the bold and the loveless...  
I love you all, I love you all, I love you all...

Crazyshow - CD2 – Heartbreaker - 2:04

I feel so lonely when i'm not with you  
It's such a shame that i'm spending my time  
Without you  
Yet I have found you're from a different world  
It must be venus cause love's such a prime time  
With you, girl  
Don't you understand  
We ride on a space-ship out of control,  
How sublime  
Who's breaking who's heart first  
You say you can't do it, mama  
Yes you can  
It's so easy to do  
By giving me less of your love than you have ( hold ) in your heart  
My baby with your come-to-bed eyes  
Just one little kiss from your lips  
Is enough for a lightyear or more in love  
You're breaking my heart  
Each night that i don't get enough  
Each night, and i can't get enough of you  
Each night and i can't get enough of you  
Each night and i can't get enough...

Crazyshow - CD2 - Waiting 4 The Nu Lite - 6:43

He's sitting in the lobby of an african hotel  
A gun in his pocket, he's waiting for himself  
And this girl at the bar says: hey, what do you think  
C'mon, pay me a drink, be my karaoke king  
Cause you're bigger than elvis and smarter than bob  
And you're singing songs you've never heard before

And this is judgement day so tell me what you have to say  
But why don't you sing it when you're singing anyway  
Tell me, why don't you sing it when you're singing anyway  
Evermore i drove down the glowing bones  
Of a shattered highway without an end  
And I watched your hair 'gainst the fields of wheat  
Like a flickering flame in the screaming winds  
If our love was bigger than the 7 seas  
Wonder how big our lifes in the end might be  
To fit in everything, all the goods, all the sin  
But we shouldn't complain as long's we're not givin' in  
We're all waiting for the new light...  
I am sitting in the lobby of an african hotel  
I'm waiting for someone who will never come  
And the girl at the bar says: angel, pay me a drink  
C'mon, c'mon, be my karaoke king  
Cause you're bigger than bernhard and you're smarter than gold  
And i bet in your pocket is a 45 colt  
And this is judgement day, so why don't you stay  
And we're killing some time before it kills us anyway  
Don't wanna be too negative, so please don't get me wrong  
It's just that life's too short and that your dead for too long  
And ain't it strange we care the most about the least important things  
I've been waiting here for so long since a million fucking drinks  
Cause you're bigger than bernie and you're smarter than gold  
And I bet in your pocket is a 45 colt  
And this is judgement day, so why don't you stay  
And we're killing some time before it kills us anyway  
Waiting for the new light...

Crazyshow - CD2 - Shadows She Said ( Omerta ) - 4:32

There's no more place to go  
The other bars are closed  
The night the stranger came to town  
How do you know  
When you're right or wrong?  
How do you know  
If you hurt or if you don't?  
So many people say so many things  
But nobody agrees on anything  
There's no more place to go  
Shadows she said  
There's no more place to go  
Shadows she said  
This night's an empty shell  
Shadows she said

And all the shadows followed after her  
You burned the book of life  
The cradle and the tomb  
How could you ever dare  
There's no more turning back  
Your stars lit up in flames  
There's gunsmoke in the air  
And yesterday you bought a brand-new car  
But you don't feel like going very far  
There's no more place to go...  
There's no more place to go  
Shadows she said  
There's no more place to go  
Shadows she said  
This night's an empty shell  
Shadows she said  
And all the shadows followed after her  
Here they come...  
Shadows she said...  
And all the shadows followed after her...  
Shadows she said...

Crazyshow - CD2 - Crazyshow ( Dancing On The Roof Of Your Mind ) - 9:03

Ooh let me live  
In a non-stop crazyshow  
From dawn to dusk  
On the meadows of happiness  
And your billion dollar smile rises up the horizon  
In a golden glow  
Just like the sun in some crazyshow  
Crazy, crazy...  
And I'm dancing on the roof of your mind  
In a golden glow...  
Go west, dreamcar, gas-mask, superstar  
War crime, sun sail, big time, blue whale  
Greatest love on tv, telecom, reality  
Drag queen, millionaires,  
Truth machine and teddybears,  
Boop-a-loola, genocides,  
Coke & coola, northern lights  
Red bobs, ocean liner, big knobs, sweet regina  
Black hole, serialkiller,  
Nat king cole and wishfulfiller  
Oh let me live in a non-stop crazyshow  
Oh let me live in a non-stop crazyshow...  
And your billion dollar smile rises up the horizon

In a golden glow  
Just like the sun in some crazyshow  
Yes I can see you there ( on the roof of your mind )  
Yes I can see you there ( on the roof of your mind )  
Oh let me live  
In a non-stop crazyshow  
From dawn to dusk  
On the meadows of happiness  
And your billion dollar smile rises up the horizon  
In a golden glow  
Just like the sun in some crazyshow...

Crazyshow - CD2 - Moonboy ( Thank You ) - 4:42

You gave me strength, you pushed the blades away from me  
Oh how we dreamt to change the world  
And we would never give in, no matter what they say  
A really cool connection in a cruel world  
You led me through the nights - and through the hardest fights  
We dreamt we'd be the ones - and we would never lose  
You made me speechless - and fearless - yet it made you fearless too  
Oh how we dreamt to be so fearless - no matter what they do  
I don't know where you are now - we shared a dream of being together  
You led me to the light, yeah - for this i would like to thank you forever  
Moonboy...  
You've been around, a distant star, you've seen them come and go  
Those unknown chaps without a slightest chance  
I know, all without faith are liars even when they're dreaming  
I'd even put my faith in god if he knew how to dance  
Our minds are filled with crazy dreams - they seem to be unreachable  
But if you give them up they stay - till someone else takes them away  
I met you in this hotel hall - oh nino, ain't it hard  
Not to be understood  
But all you said was: hey, I just wanna sing ( like an angel )  
I don't know where you are now - we shared a dream of being together  
You led me to the light, yeah - for this i would like to thank you forever  
Moonboy...  
I don't know where you are now - you come and go whenever you like..  
Just believe in your powers - you might find out you're invincible...  
?o matter what they say...

Crazyshow - CD2 - Miracle Healing - 4:50

Hello my friend !  
It's late and I want to sleep  
But I just can't make it to my bed.

I've got a brand-new song on my screen. it's called miracle healing.  
I read it on a sign somewhere in port of spain  
( 29. 4. 2000 ).  
I remember a bright-blue-colonial building. for me it looked like the  
Entrance to paradise.  
A place full of smiling people, a place full of happiness.  
I was dreaming to go there instead of doing the interview & receive...  
A miracle healing of innocence & ecstasy.  
Dreams of independence. love, caress & energy.  
The circle & square, sound & vision, angels are singing  
You're gonna burn in hell no more - you're gonna burn in hell no more...  
Are you sure what to think of me ?  
Do you know how i should be ?  
Is there any damn explanation for this world ?  
And what kind of healing would i need ?  
Only one thing I know is that I need some help,  
I must finish this song to find it all out  
A miracle healing...  
Hello my friend!  
It's late and I want to sleep  
And I'm sitting here all alone with my ghosts tonite  
I don't know what to write to you  
I just want to say that I'm thinking of you  
And I hope that you're alright  
I am, well, ...better, I think it must be because of this letter  
And if it's not so then I really don't have a clue  
If i slept for a thousand years would you dig inside my pyramid ?  
Would you resurrect me from the dead, would you light up my darkness, would  
You give me...  
A miracle healing...?

Crazyshow - CD3 - Giants – 1996 - 4:03

Be on your guard when you sit in the open places  
Because i'm blessed with all the wonders of the sun  
When tigers, palmtrees, rattlesnakes unfold their graces  
That kind of magic you may get a sunburn from  
And there's no better way for us than our old sweet ways  
And angels burn to dust before the human race  
We're giants under a rainbow  
We're stranded east of eden  
Sometimes we're crying in the afterglow

In a world of broken toys, how can we live without them  
Freedom that is what you are always screaming  
It is a scream but more a nightmare than a laugh  
Those without faith are liars even when they're dreaming  
I'd put my faith in god if he knew how to dance  
But there's no devil in the darkness, no demon in the skies  
Nothing to be afraid of, cross my heart and hope to die  
Freedom...  
Freedom...

Crazyshow - CD3 - Wish You Were Dead / Wishful Thinking - 1996, Original Demo - 4:21

Into the night  
Still falls the rain  
Even the dogs stay home tonight  
Out on the streets  
Going nowhere  
Just one direction in my thoughts  
Love can be magic  
It can be a game  
Sometimes it's tragic  
And sometimes a shame  
Words were my bullets  
Emotion my gun  
I was a runner  
Now i'm on the run  
Sometimes I wish that you were dead  
That is because you haunt me so  
I wasn't right to let you go away  
I try to kill the pain inside  
But you are always on my mind  
No matter where I go or stay  
Sometimes I dream my time away  
And we're together again  
But I know that can never be  
And all my hopes are in vain  
You were my treasure  
That i didn't know  
You were the sun in my life  
Thought I was dying  
When I realized  
There's just one chance to survive...

Crazyshow - CD3 - About A Heart – 2001 - 4:42

There's a doubt in my heart  
And it's sinking deep inside of me  
It's the way that you talk  
It's in the way you're touching me  
When I look into your eyes  
You're a million miles away from me  
And there's nothing I can do  
There's nothing left to say  
You'll break my heart, there's nothing left to say  
You'll break my heart, there's nothing i can do  
You'll break my heart...  
Rip it off and watch it fall..  
Will you go - will you stay  
Is there any chance for me to keep you here  
By my side - or is my fate already sealed  
Is there anybody else  
Or am I still the only one  
If it's so then i don't care  
Just waiting for the blow to come  
You see, there's nothing I can do  
You'll break my heart ( in any case ) there's nothing left to say  
( you'll break my heart... )  
Rip it off and watch it fall...  
You'll break my heart, there's nothing left to say  
You'll break my heart, there's nothing i can do  
You'll break my heart, rip it off, rip it off  
You'll break my heart..

Crazyshow - CD3 - Sounds Like A Melody - MaXx Mystery's 80's Remix - 4:17

It's a trick of my mind  
Two faces bathing in the screenlight  
She's so soft and warm in my arms  
I tune it into the scene  
My hands are resting on her shoulders  
When we're dancing away for a while  
Oh we're moving, we're falling,  
We step into the fire  
By the hour of the wolf in a midnight dream  
There's no reason to hurry  
Just start that brand new story  
Set it alight, we're head over heels in love,

Head over heels...  
The ringing of your laughter  
It sounds like a melody  
To once forbidden places  
We'll go for a while  
It's the definite show  
Our shadows resting in the moonlight  
It's so clear and bright in your eyes  
It's the touch of your sighs  
My lips are resting on your shoulder  
When we're moving so soft and slow  
We need the ecstasy, the jealousy,  
The comedy of love  
Like the Cary Grants and Kellys once before  
Give me more tragedy, more harmony  
And fantasy, my dear  
And set it alight, just starting that satellite  
Set it alight...  
The ringing of your laughter  
It sounds like a melody  
To once forbidden places,  
We'll go for a while

Crazyshow - CD3 - Something – 1968 - 3:54

Something in the way she moves  
Attracts me like no other lover  
Something in the way she woos me  
I don't want to leave her now  
You know I believe and how  
Somewhere in her smile she knows  
That i don't need no other lover  
Something in her style that shows me  
I don't want to leave her now  
You know I believe and how  
You're asking me will my love grow  
I don't know, I don't know  
You stick around now it may show  
I don't know, I don't know  
Something in the way she knows  
And all I have to do is think of her  
Something in the things she shows me  
I don't want to leave her now  
You know i believe and how...

Crazyshow - CD3 - Because Of U - 1993, Band Rehearsal - 4:31

Oh, I want to know I want to go  
Through that situation again, I'd like to catch  
That something in your eyes it thrilled me once again  
That gentle touch I can't describe  
It's like a reflection of the moon on the water  
Don't let it go, because of you the earth stood still  
Just do it again  
Burn, burn away, sacred letters, ragged backdrops  
I don't care, the certainty of death,  
The boring rituals of life they seem so far  
I don't care for my life, I just live for your love  
That is because of what you do, just do it again  
Because of you the earth stood still  
Just do it again

Crazyshow - CD3 - Inside Out - 2002, Thou Shalt Not Remix - 4:31

Your hand full of hours - sand from the urns  
A traveling companion - the secret of ferns  
From darkness to darkness - where shall I begin  
When whiteness attacked us - sewn under our skin  
And there were the stars that helped to navigate our souls  
With all my love - I went into the world  
From inside out - and I gave it all to you  
But I need your love - that was looking for me  
Just on my lips look for your kiss  
And always I think where we might have gone  
If we'd never met inside this song  
Our names are enciphered - but the words became true  
When I was the sun and you, you were the moon  
And there were the stars that helped to navigate our souls  
With all my love...

Crazyshow - CD3 - The Opium Den - 2001 - 6:55

May I introduce myself  
I'm your poison  
I'm gonna kill you tonite  
I do it slowly, you gonna like it  
You remember me for the rest of your life  
But it won't last very long, hang on  
It won't last very long, so hang on  
To the opium den  
I hang out here every nite  
I'm just waiting, I'm just waiting for you  
You gonna like what I..., you gonna like it

You gonna like what I do  
But it won't last very long, hang on  
It won't last very long, so hang on  
To the opium den...  
May I introduce myself  
I'm your poison, I'm gonna kill you tonite  
I do it slowly, you gonna like it  
You remember me for the rest of your life  
But it won't last very long, hang on  
It won't last very long, so hang on  
To the opium den...  
It offers you comfort  
As everything about it  
It is mild, without reason  
And for all it is perfect  
And it is there, where I go now  
And it is there, where I now go  
And it is there, where I now go  
It is there... where I... now... go..

Crazyshow - CD3 - Diamonds Are 4 Eva – 1971 - 3:08

Diamonds are forever, they are all I need to please me  
They can stimulate and tease me  
The won't leave in the night,  
I've no fear that they might desert me...  
Diamonds are forever, hold one up and then caress it  
Touch it stroke it and undress it  
I can see every part, nothing hides in the heart to hurt me  
I don't need love, for what good will love do me ?  
Diamonds never lie to me for when love's gone they luster on...  
Diamonds are forever, sparkling round my little finger  
Unlike girls the diamonds linger  
Girls are mere mortals who are not worth going to your grave for  
I don't need love, for what good will love to me ?  
Diamonds never lie to me for when love's gone, they luster on  
Diamonds are forever, forever and ever...

Crazyshow - CD4 - Return To Paradise Part 1 - 22.07.2002 - 3:02

Kings and queens and frogs and princes  
Gnomes and dwarfes and dragons old

Treasures hidden, golden sphinxes  
Lovely maiden, giants bold  
Hush, my little lovely darlings  
Dream on through the deepest night  
Here 's a kiss for each of you  
Wonder where you going to  
When you 're sleeping tight  
Return to paradise...  
Sometimes when it 's really quiet  
I come running to your bed  
Listen hard to hear you breathing  
Stroke your tender little heads  
You are flowers sent from heaven  
On a gentle golden breeze  
Here 's a kiss for each of you  
Maomoon dog singing too  
Lullabys of peace  
Return to paradise...  
On a ship to elfland wonders  
Just a little trip away  
There you 're playing in the starshine  
Underneath the milky way  
All the angels in their glory  
Will be watching over you  
Dream on while the stars are falling  
( falling on you )  
May your dreams come true

Crazyshow - CD4 - Scum Of The Earth - 13.10.2000 - 3:40

You should be killed  
You should be wiped out from the face of the world  
There's no excuse for the likes of you  
And no one would cry for a worm like you  
You're a stain on the face of the nation  
And like your mother I curse  
The day of your birth  
You're the scum of the earth, the scum of the earth  
And I cry, but not for you...  
Why do you scream at me ?  
Why are you trying to explain what can't be explained  
If it's not your will, your will to kill

And why are you praising those heroes when you're not a hero at all ?  
You're the scum of the earth, the scum of the earth  
And I cry, but not for you...

Crazyshow - CD4 - Upside Down - 02.04.2001 - 5:50

You carved the runes into my bones and signed them up for me  
I still don't know what's on your list and what's prepared for me  
You killed the fairies in my dreams, you poured their blood on me  
If i only knew your plans, I'd drink it happily  
I hate to be in love with you but put the blame on me  
You're innocent just like a gun, you love me dangerously  
Your body seems to be unreal, your touch is like the sea  
And when I gaze upon your smile the devil grins at me  
But if I lost your gleaming look I'd lose the light in me  
As long as I can feel the pain I burn fantastically  
I hate to be in love with you but put the blame on me  
You're innocent just like a gun, you love me dangerously  
You brought the stars right down to me, you smashed them on the ground  
You ripped the moon out of its place and turned it upside down  
Maybe you thought I'd take it cool but I feel like I'm cursed  
Armed with the rapture of a fool I ruin my universe  
I hate to be in love with you but put the blame on me  
You're innocent just like a gun, you love me dangerously

..You carved the runes into my bones and signed them up for me  
I still don't know what's on your list and what's prepared for me...  
...for me  
...for me  
...for me

Crazyshow - CD4 - Shadows She Said ( Ormeta ) - 16.05.2001 - 4:32

There's no more place to go  
The other bars are closed  
The night the stranger came to town  
How do you know  
When you're right or wrong ?  
How do you know  
If you hurt or if you don't ?  
So many people say so many things  
But nobody agrees on anything  
There's no more place to go  
Shadows she said  
There's no more place to go  
Shadows she said  
This night's an empty shell

Shadows she said  
And all the shadows followed after her  
You burned the book of life  
The cradle and the tomb  
How could you ever dare  
There ´s no more turning back  
Your stars lit up in flames  
There ´s gunsmoke in the air  
And yesterday you bought a brand-new car  
But you don´t feel like going very far  
There ´s no more place to go...  
There ´s no more place to go  
Shadows she said  
There ´s no more place to go  
Shadows she said  
This night ´s an empty shell  
Shadows she said  
And all the shadows followed after her  
Here they come...  
Shadows she said...  
And all the shadows followed after her...  
Shadows she said...

Crazyshow - CD4 - First Monday In The Y3K - 04.06.2001 - 3:23

As I walk these empty streets  
With the remains of warfare scattered on the ground  
And I tried to remember your face  
An empty page in my diary  
And I tried to remember all the ways  
Which now belong to the past  
Many ways, many days have gone by  
And your face became an empty page in my diary.  
And my life lies there  
Split up into a million pages  
Always a moment in front of me  
Racing with the speed of light  
And I tried to remember all the ways  
Which now belong to the past...

Crazyshow - CD4 - MoonGirl - 01.11.2000 - 4:30

Sometimes it seems the night will last forever  
Sometimes it seems that darkness always falls  
A dark star woke you up and with a dark star, you go to bed  
You´re sinking slowly into the deep

You wonder if you ever touch the ground  
Where you would walk through sparkling spheres,  
On strangest drugs and without fears  
You feel just like a little girl  
And all your dreams lie frozen on the moon  
You left them there some time ago  
But it ain't true that you don't need them anymore  
You are so beautiful, you are so very beautiful  
Don't give up, kill the pain, don't start crying again  
Here it comes, here it comes, the golden handshake of life  
You are so beautiful, you are so very beautiful  
Keep the faith, stop to fight  
And walk out into the night  
You're so strong, yes you are  
Reach out for your star....  
Even those who are afraid to live  
They're dying some day  
Sometimes it seems that silence crawls all over  
Sometimes it's hell inside and hell out there  
Your heart is nothing but a haunted place  
Is that you in the mirror?  
You're all alone inside a world  
Full of confusion and of strange alarms  
And though your courage left you long ago  
It doesn't mean that you don't have it anymore

Crazyshow - CD4 - Waiting 4 The Nu Lite - 09.07.2001 - 4:20

He's sitting in the lobby of an african hotel  
A gun in his pocket, he's waiting for himself  
And this girl at the bar says: hey, what do you think  
C'mon, pay me a drink, be my karaoke king  
Cause you're bigger than Elvis and smarter than Bob  
And you're singing songs you've never heard before  
And this is judgement day so tell me what you have to say  
But why don't you sing it when you're singing anyway  
Tell me, why don't you sing it when you're singing anyway  
Evermore I drove down the glowing bones  
Of a shattered highway without an end  
And I watched your hair 'gainst the fields of wheat  
Like a flickering flame in the screaming winds  
If our love was bigger than the 7 seas  
Wonder how big our lives in the end might be  
To fit in everything, all the goods, all the sin  
But we shouldn't complain as long's we're not givin' in  
We're all waiting for the new light...  
I am sitting in the lobby of an african hotel

I'm waiting for someone who will never come  
And the girl at the bar says : angel, pay me a drink  
C'mon, c'mon, be my karaoke king  
Cause you're bigger than Bernhard and you're smarter than Gold  
And I bet in your pocket is a 45 colt  
And this is judgement day, so why don't you stay  
And we're killing some time before it kills us anyway  
Don't wanna be too negative, so please don't get me wrong  
It's just that life's too short and that your dead for too long  
And ain't it strange we care the most about the least important things  
I've been waiting here for so long since a million fucking drinks  
Cause you're bigger than Bernie and you're smarter than Gold  
And I bet in your pocket is a 45 colt  
And this is judgement day, so why don't you stay  
And we're killing some time before it kills us anyway  
Waiting for the new light...

Crazyshow - CD4 - Those Wonderful Things - 21.01.2001 - 4:51

Some days you run, run, run  
You never stop and when you stop  
You're too tired to think about anything.  
But some day, when you finally stop,  
You're able to think and wonder about your breathless running  
And if i could have a christmas wish come true...  
I would wish for nothing but ( for ) wonderful things  
And in your life, which is so precious to me,  
May troubles, worries never linger;  
May they only make you stronger...  
And may you rise each day with sunlight  
In your heart  
And success on your path  
And answers to your prayers  
And that smile  
That i love to see  
Always there...  
In your eyes...  
And if i could have a christmas wish come true...  
I would wish for nothing but ( for ) wonderful things  
And in your life, which is so precious to me,  
May troubles, worries never linger;  
May they only make you stronger...  
...and able and wise  
...and able and wise  
...and able and wise  
And if i could have a christmas wish come true...  
I would wish for nothing but ( for ) wonderful things

And in your life, which is so precious to me,  
May troubles, worries never linger;  
May they only make you stronger...  
...those wonderful things  
...stronger  
...those wonderful things  
...stronger  
...those wonderful things  
...stronger  
...those wonderful things

Crazyshow - CD4 - C Me Thru - 01.01.2001 - 3:31

I'm living in a perfect world embedded in a perfect game can't get enough of all this stuff but everything is quite the same and all the cigarettes and pills, all the visions, all the thrills they seem to come second hand I wonder if you understand the mirror is a brilliant place to lose myself within a maze they moved the moon when I looked down and then they turned the stars around I try to speak but what's the use, instead I scream, I'm so confused and when I tried to touch your face, you disappeared without a trace

Just see me through  
And please believe me what I'm telling you ( you disappeared without a trace )

Don't bring me down

I'm standing naked here in front of u, just when I tried to touch your face

Just come on here

What do you think that I can do for you

I might have lied so many times before

But this time I'll be true

These days are fast, they seem like glass, they rushing in and then they pass they have no value anymore, they seem like clones or metaphors and honesty is what we hate, it's what we're trying to escape from I wash my hands a million times like pilate when he did his crimes when we are young we're wild and free, when we get old we're history I struggled hard to fit the mold, I hope I die before you're old it doesn't matter what we gain when all our does or dies are in vain and when the music fades away our memories just go astray

Just see me through

And please believe me what I'm telling you ( and when the music fades away )

Don't bring me down

I'm standing naked here in front of you ( Our memories just go astray )

Just come on here

What do you think that I can do for you

I might have lied so many times before

But this time I'll be true

Crazyshow - CD4 - MoonBoy - 01.12.2000 - 4:57

You gave me strength, you pushed the blades away from me

Oh how we dreamt to change the world

And we would never give in, no matter what they say

A really cool connection in a cruel world

You led me through the nights - and through the hardest fights  
We dreamt we'd be the ones - and we would never lose  
You made me speechless - and fearless - yet it made you fearless too  
Oh how we dreamt to be so fearless - no matter what they do  
I don't know where you are now - we shared a dream of being together  
You led me to the light, yeah - for this i would like to thank you forever  
Moonboy...

You've been around, a distant star, you've seen them come and go  
Those unknown chaps without a slightest chance  
I know, all without faith are liars even when they're dreaming  
I'd even put my faith in god if he knew how to dance  
Our minds are filled with crazy dreams - they seem to be unreachable  
But if you give them up they stay - till someone else takes them away  
I met you in this hotel hall - oh nino, ain't it hard not to be understood  
But all you said was: hey, i just wanna sing ( like an angel )  
I don't know where you are now - we shared a dream of being together  
You led me to the light, yeah - for this i would like to thank you forever  
Moonboy...

I don't know where you are now - you come and go whenever you like..  
Just believe in your powers - you might find out you're invincible...  
No matter what they say...

Crazyshow - CD4 - Miracle Healing - 26.07.2001 - 5:10

Hello my friend !  
It's late and I want to sleep  
But I just can't make it to my bed.  
I've got a brand-new song on my screen.  
It's called miracle healing.  
I read it on a sign somewhere in port of spain  
( 29.4.2000 ).  
I remember a bright-blue-colonial building.  
Ffor me it looked like the  
Entrance to paradise.  
A place full of smiling people, a place full of happiness.  
I was dreaming to go there instead of doing the interview & receive...  
A miracle healing of innocence & ecstasy.  
Dreams of independence. love, caress & energy.  
The circle & square, sound & vision, angels are singing  
You're gonna burn in hell no more - you're gonna burn in hell no more...  
Are you sure what to think of me ?  
Do you know how I should be ?  
Is there any damn explanation for this world ?  
And what kind of healing would I need ?  
Only one thing I know is that I need some help,  
I must finish this song to find it all out  
A miracle healing...

Hello my friend !

It´s late and I want to sleep

And I´m sitting here all alone with my ghosts tonite

I don´t know what to write to you

I just want to say that I´m thinking of you

And I hope that you´re alright

I am, well, ...better, I think it must be because of this letter

And if it´s not so then I really don´t have a clue

If I slept for a thousand years would you dig in my pyramid ?

Would you resurrect me from the dead, would you light up my darkness, would

You give me...

A miracle healing...?
