

Giants - 3:26

I hate to sleep, but I love to dream
It drives me to places, that I've never seen
My mind is in flames, I pray they will stay
If you felt this fire, you know what i'm sayin'

So, here is my plan, for a journey so brief
On the ship of your follies, as soon as you can
Worn out propulsion, will fall into one (fall into one)
Don't care where we are going , before we are gone

And we're masqueraders, much bigger than life
So full of desire, don't let it die
And we can be giants, although we're so small
Cause nobody's perfect, nobody's perfect at all

Marionettes With Halos - 4:20

Imperial Goliath
Lost in an unhelpful space
And you know who's creating islands
Of increasing entropy
And mesmerized circus monkeys
Dissolve like quaaludes in lemonade
Industrial moguls trot out their sermons
They're all, they're begging for a new sound

Marionettes with halos sell out their rights
Ooo crack, baby, crack
Marionettes with halos immortalized
Doomed variety acts
Marionettes with halos sell out their rights
Crack, baby, crack

You're so full of lies
Pimped in X-factor make-up
Applause over end credits
As the ghouls leave the theater
You may be very sexy
But you're not an artist at all
Karaoke pipe dreams of rock'n'roll eunuchs
Proclaiming Dick Rowe for their hero

Marionettes with halos sell out their rights
Ooo ... crack, baby, crack
Marionettes with halos immortalized
Doomed variety acts
Marionettes with halos sell out their rights
Ooo crack, baby, crack
[indistinct]
Crack, baby, crack

Marionettes with halos sell out their rights
Ooo ... crack, baby, crack
Marionettes with halos immortalized
Doomed variety acts
Marionettes with halos sell out their rights
Ooo crack, baby, crack

Marionettes with halos sell out their rights
Marionettes with halos
Crack, baby, crack
Crack, baby, crack
Crack, baby, crack
Ooo ... crack, baby, crack

House Of Ghosts - 5:05

I'm stuck in the house
That once belonged to you
I'm stuck in the house
Lost without myself
I'm stuck in the house
Don't know where I'm goin' to
I'm stuck in the house
Dust upon the shelf

The pale moon's standing still
Frozen on the ridge
The stars tiptoe to their ancestral places
The books on the walls
Dream ominous dreams

And armies of shadows
Are walking off their pages

I'm stuck in the house
That once belonged to you
I'm stuck in the house
Lost without myself
I'm stuck in the house
Don't know where I'm goin' to
I'm stuck in the house
Dust upon the shelf

The names and numbers
Grow meaningless in my mind
Patterns disintegrate
On the black surface of night
And since the moon arose
She swallowed all memories
Insatiable hunger she bears
That never will cease

Ooo I'm stuck in the house
Stuck in the house
Stuck in the house
Stuck in the house
Always

I'm going now
There's nothing left to do
The door closes behind me
The moon had her fill too
The night turns itself over
Into a newborn day
The key's under the doormat
For the next who comes to stay

He's stuck in the house
That once belonged to you
Stuck in the house
Lost without himself
Oh he's stuck in the house
(stuck in the house)
Don't know what he will do
He's stuck in the house
Dust upon the shelf
(stuck in the house)

Stuck in the house
(The names and numbers)
That once belonged to you

(Patterns disintegrate)
Stuck in the house
(On the black surface of night)
And since the moon arose
(He's stuck in the house)
She swallowed all memories
(Don't know what he will do)
Insatiable hunger she bears
(He's stuck in the house)
That never will cease

Always, always
Always, always
Always, always
Stuck in the house

And I wonder
Leaving from there was always so sad
Always

Around The Universe - 3:58

There's a man waving his hat
At a starting aero-plane
On a faded photograph from long ago
And I wondered who he was
Who was on the plane
And where the flight was going to
And I felt kind of homesick
Although you were with me

Save a prayer, a prayer for me
When will I ever come back again?
Save a prayer, a prayer for me
When will I ever come back, come back again?

When the circle is fulfilled
When the planes are coming back
And I'll be there to welcome you home
And it will be my turn
And nothing shall be left
But memories and faded photographs
You see, I'm on my way
Some have to go, some have to stay

Save a prayer, a prayer for me
When will I ever come back again?
Save a prayer, a prayer for me
When will I ever come back, come back again?

When will I ever cope with love?
When will I ever learn?
And I feel I have to go
To where I do not know, to where I do not know

Save a prayer, a prayer for me
When will I ever come back again?
Save a prayer, a prayer for me
When will I ever come back, come back
When will I ever come back, come back again?

Enigma - 5:58

I feel strange, nervous and tired
Not really sad
I'm just awakened
To the fact that I am lonely
There are people who pass by
There are people who stay
But that's not the point
No, that's not the point

This is what I've been searching for
Tryin' to break thru that black hole door
Tryin' to reach for you
But I'm drifting away

I'm drifting away
I'm drifting away
Through my sleepless nights I'm drifting away
Though your lips are moving
I can't hear what you're sayin'
I'm drifting away

I can hardly remember
When I saw you the last
Where once we were playin'
Now there's nothing but enigmas
Made a hole in my chest, and
Counted the stars inside
And then I saw you out there
Strung out into eternity

This is what I'll be going for
Tryin' to break through that black hole door
Tryin' to get to you
But I'm losing the grip
Woah ohh

I'm drifting away
I'm drifting away
So many starry nights I drifted away, my lovely
And though your shape is shining
Like a million hot summer days
Nothing can bring you back
Nothing can bring you back
My true love

I'm drifting away
I'm drifting away
Through my sleepless nights I'm drifting away
Though your lips are moving
I can't hear what you're sayin'
I'm drifting away

I'm drifting away
I'm drifting away
So many starry nights I drifted away, my lovely
And though your shape is shining
Like a million hot summer days
Nothing can bring you back
Nothing

Mafia Island - 6:21

Yes, we sailed
Over the storm whipped, jade-green sea
On Chephren's barge to Mafia island
We broke coral and drank whiskey
In the glowing heat
And the sun sail slattered in the wind
Like berserk machine guns

And the girls from the bar
They were bathing at the beach
And they sang in their melancholic voice
Soft words that were caught
Between the sound of the waves
And they sang in a melancholic voice

We're stuck here for good
The radio had broken off
Just a few days ago
The ether swelled as the earth ran dry
Nothing moved in the flickering ardor

And the girls from the bar
They were bathing at the beach

And they sang in their melancholic voice
Soft words that were caught
Between the sound of the waves
Yes, they sang in a melancholic voice
Melancholic

And the girls from the bar
They were bathing at the beach
And they sang in a melancholic voice
Soft words that were caught between the sound of the waves

And the girls from the bar
They were bathing at the beach
And they sang in a melancholic voice
Soft words that were caught between the sound of the waves

And they sang in a melancholic voice
Melancholic

A Handful Of Darkness - 7:48

Take a look at that child
Living in a world of war
It could be yours or mine
But not for very long
For now it's judgement's day
Tonight it will be killed
But maybe in your dreams
It comes around again
To tell you lovely things
About a paradise
Where everything is clean
And everybody's nice
And everything's in love
And everything is light
Where mom and papa wait
To kiss you good night
To kiss you good night

Oh mighty Jesus, where is the sky?
Where is that great wide open?
Where I used to fly?
Where went my strength and anger?
Who's that to blame?
Are we just lost in life, without an aim?

Oh mother Mary, where have we gone?
So far away from you and from the sun

Send you all my love
In a handful of darkness
In a handful of darkness

And all the things you've done
And all the things we've seen
And all the books you've read
Are spinning in our head
And every time you leave
And every time you stay
You'll always turn around
And think about the day
There's not much we can do
There's not much we could say
It's all about the things we do from day to day
And all the things we've done
And all the things we've seen
And all the books we've read
Stay somewhere in our heads

Oh mighty Jesus, where is the sky?
Where is that great wide open?
Where I used to fly?
Where went my strength and anger?
Who takes the blame?
Are we just lost in life, without an aim?

Oh mother Mary, where have I gone?
So far away from home; from the sun
I send you all my hopes
And a handful of darkness

Oh mighty Jesus, where is the sky?
Where is that great wide open?
Where I used to fly?
Where went my strength and anger?
Who takes the blame?
Are we just lost in life, without an aim?

Oh mighty Jesus, where is the sky?
Where is that great wide open?
Where I used to fly?
Where went my strength and anger?
Who takes the blame?
Are we just lost in life, without an aim?

Oh mother Mary, where have we gone?
So far away from you and from the sun
I sent you all my love
In a handful of darkness
I sent you all my love

In a handful of darkness

Sexyland - 3:49

Follow me way back in time
To my post-war phantom empire
Freezing and homeless
In the cold winter night
Hanging out in a Tubeway station
With no place to go
Full of dreams and illusions
Waiting for the end of the night

Then I saw your face all over the place
A porn-supermarket ad, a strange attractor
A moment I will never ever forget

How could I know this was my flight to Venus?
When I bought my underground ticket
That night I waved good-bye to life
With the European narcotic kings
And their wives
In simmering anticipation

She looked like the queen of babylon
A girl of the underworld
Soft skin on black silk
Bathed in cold neon light
An icon at the wall of a cathedral
A b-girl rhapsody
A date with disaster
Between the devil and the deep blue

Forbidden paradise when worlds collide
In this city by night
I was on a most fantastic journey

How could I know this was my flight to Venus?
When I bought my underground ticket
That night I waved good-bye to life
With the European narcotic kings
And their wives
In simmering anticipation

It's a glittering secret
A magic spell
The pale girls they know
But they, they never will tell
I wish we were movie stars

Just you and me
And Saturday night, Saturday night
Became eternity

How could I know this was my flight?
How could I know this was my flight?
How could I know this was my flight?

How could I know this was my flight to Venus?
When I bought my underground ticket
That night I waved good-bye to life
With the European narcotic kings
And their wives
In simmering anticipation

Rendezvoyer - 4:14

Here I'm throwing stones
That won't come down
Playing hide and seek
With jesters and with clowns
Like a storm of wings
On wings of song
I feel so confused
I can't go on

I can't wait to feel
You coming down
I can still hear what you say
Love is just a game to play
Oh my deadly one
Take this pain away
Come embrace me, angel
Lead me to the, to the very end

Rendezvoyer, what will you do?
It feels I'm trapped inside your view
Rendezvoyer, what will you do?
It feels I'm trapped inside your view

You threw me roses for a day
And then I burned them right away
Perhaps you waited much too long
The ghouls inside are fast asleep
They fill my head ten thousand deep
Or do they plan my final song

Your face obscured by solid trance
In flesh and blood you warm your lance

Rendezvoyer, what will you do?
It feels I'm trapped inside, inside your view

Rendezvoyer, what will you do?
It feels I'm trapped inside your view
Rendezvoyer, what will you do?
It feels I'm trapped inside

Rendezvoyer, what will you do?
It feels I'm trapped inside your view
Rendezvoyer, what will you do?
It feels I'm trapped inside

Rendezvoyer, what will you do?
It feels I'm trapped inside
Rendezvoyer, what will you do?
It feels I'm trapped inside

Nevermore - 4:49

I know you don't exist
But last night I beheld your face
Is that you?
Is that you?

I know you don't exist
All your advice was forged by myself
But is that you?
Is that you?

In vain I fought at crossroads with your lies
In vain I came up with those helpless alibis
I know, I know, you don't exist
I know, I know, you don't exist

Mr. Nevermore
Soon you'll be walking down
The alleys of my dreams
Yes, I'm Nevermore
Rubbing your hands in glee and making plans
For Nevermore
Ceaselessly going 'round inside my head
And scornfully you're whispering into my ear
I know, I know, I know, I don't exist, my dear

Still in this ambush of unlikelyhood
I'm hiding, well prepared for intervention
It's me
Yes, it's me

And when you're tired, I'm awake
You hear my laughs just before you close your eyes
It's me
Yes, it's me

I never sleep, I never let you be
Some call it karma, some call it destiny
Your doors are safely locked but I hold the keys
My friends inside are legion waiting for their release

I am Nevermore
Soon I'll be walking down
The alleys of your dreams
I'm Nevermore
Rubbing my hands in glee and making plans
Forever more
Ceaselessly going 'round inside your head
And it's my greatest pleasure to whisper in your ear
I know, I know, I know, I don't exist, my dear

I am Nevermore
Soon I'll be walking down
The alleys of your dreams
I'm Nevermore
Rubbing my hands in glee and making plans
Forever more
Ceaselessly going 'round inside your head
And it's my greatest pleasure to whisper in your ear
I know, I know, I know, I don't exist, my dear

Fever! - 3:45

Raging horses in the darkness
When she's crawling in I'm waking
And her demons soon got lazy
And the world melts without aching

Senorita in a fun house
With no idea where to turn to
If you ever recognize her
Smash the mirror to escape her

She's obsession, she's a fever
Almost perfect, I couldn't leave her
A killer in the mirror
The answer to romancers

She's obsession, she's a fever
Almost perfect, I couldn't leave her

A killer in the mirror
A killer in the mirror
The answer to romancers

She's obsession, she's a fever
Almost perfect, I couldn't leave her
A killer in the mirror
A killer in the mirror
The answer to romancers

Mmm, and I wonder about the times we had
Oh, leaving from there was always so sad

Moons are creeping through her alleys
Angels play with hearts and halos
And the snow wafts somehow spinning
'Cross the frostings on her windows

Bodies sweat and walls are trembling
Hands grip chains both fast and frightening
Feral beasts 'gainst metal barriers
One last puff at end of lightning

She's obsession, she's a fever
Almost perfect, I couldn't leave her
A killer in the mirror
A killer in the mirror
The answer to romancers

She's obsession, she's a fever
Almost perfect, I couldn't leave her
A killer in the mirror
A killer in the mirror
The answer to romancers

And I wonder about the times we had
Leaving from there was always so sad

A silent spectre's
Face upon face
And inquiring eyes scan
The abysmal space

And I wonder about the times we had
Leaving from there was always so sad

Heartbreak City - 3:45

Heartbreak

Heartbreak City
Heartbreak
Heartbreak City
Strange is the night

Catch the next train from self pity
It takes you straight to Heartbreak City
Don't have to ask for a first class ticket
Because it's free for those who deserve the visit

Take a walk on lonely street now
Don't you stop, don't you shuffle your feet now
Never look back to where you came from
Nothing there but a goblin maelstrom
You're goin' to...

Heartbreak City, you can't let go
The fools in love, the too much and the not enough
Heartbreak City, strange is the night
Where black stars rise with strange moons in the skies

Days obscured by silent sorrow
I hope to hell it's better tomorrow
Fools are nailed at the glowing skyline
Burning angels make, ooh, the night shine

One last chance now and you've had many
Oh, they all, they just passed you by
Hold on tight now, the train is moving
Another day, another goodbye
Say hello to...

Heartbreak City, you can't let go
The fools in love, the too much and the not enough
Heartbreak City, a creeping sorrow
A pallid dolly, ten courts to hell and a dead man's folly

Heartbreak, you can't let go
The fools in love
Heartbreak, strange is the night
Where black stars rise
Heartbreak, a pallid dolly
A dead man's folly
Heartbreak, it don't heal clean
The fools in love (the too much and the not enough)

Heartbreak City, it don't heal clean
The fools in love, the too much and the not enough
Heartbreak City, strange is the night
Where black stars rise with strange moons in the skies

Heartbreak City, the king in yellow
The falling rain, they won't help to ease your pain
(Strange is the night)

Catch the next train from self pity
It takes you straight to Heartbreak City
Catch the next train from self pity
It takes you straight to Heartbreak City

Beyond The Laughing Sky - 5:38

Sometimes, I feel you in my blood
You're perfectly designed
I want to count the stars within your mind
Your body is the likeness of the universe

You, you lead me to the point
The point of no return
To scenes where dreams come true
And I don't care for fateful consequences
Mmm hmmm concerning me or you

I love to watch the secrets
In the green sea of your eyes
I'll never understand them
But they brighten up my life

You're doing wondrous things to me
That make me feel so high
They say you can have anything you want
Beyond the laughing sky
I know there's always a tomorrow (tomorrow)
But someone has to pay the bills
Someone has to pay the bills
Tomorrow (tomorrow, tomorrow, tomorrow, tomorrow)

You, you lead me to the point
The point of no return
To scenes where dreams come true
And I don't care for fateful consequences
Oh, I don't care, concerning me or you

I see you standing next to heaven's gate
Lone on the highest stair
About to navigate on crazy ways
Along the sun rays of your will
Ready to fly away you spread your mind to play
And weave the sunlight in your hair

Just do what you want (just do what you want)
I just can't get enough (I just can't get enough)
I can't live without it (I can't live without it)
Do it one more time (Do it one more time)
Do it one more time (Do it one more time)
Do it one more time (Do it one more time)
Beyond the laughing sky (Beyond the laughing sky)

Just do what you want
I just can't get enough
I can't live without it
Beyond the laughing sky
Just do what you want
Beyond the laughing sky
Beyond the laughing sky
Beyond the laughing sky
